Mr. A. L. Porter
Secretary And Director
New Mexico Oil Conservation Commission
Santa Fe, New Mexico

Re: Correction on application for unorthodox well location
in Tubbs Gas Pool, Lea County, New Mexico.

Dear Sir:

Please make the following correction on the request for unorthodox well location. The application was in error when location of the well was given as Unit A. The actual location of the well is in Unit I and the full location should read; 2054 FSL, 658.8 FEL, Unit I, Section 30 T-22S, R-38E, Lea County, New Mexico.

Sincerely yours,

H. U. Bird, Jr.
Petroleum Engr.
Western Oil Fields, Inc.

Introduction

What is the purpose of this document?

The purpose of this document is to provide a comprehensive overview of the project's goals, objectives, and scope. It also outlines the roles and responsibilities of the team members and the timeline for the project.

The project is designed to develop a new software application that will streamline the workflow of the department. The application will be developed using the latest technologies and will be tested thoroughly before being deployed.

Conclusion

The project is a complex task that requires the collaboration of all team members. It is essential to stay on schedule and communicate effectively throughout the project.

The project manager will be responsible for coordinating the team and ensuring that the project is completed on time and within budget.

The project will be completed by the end of the year. The team will be responsible for the development, testing, and deployment of the application.

The project will be a success if the application is developed and deployed on time and within budget. The team will be responsible for the development, testing, and deployment of the application.

Appendix A

- Project Charter
- Project Plan
- Project Schedule
- Project Budget
