Re Dual completion of Brinkard "A" #1.

Dear Sirs:

You will find that you are in receipt of a letter of notification of the dual completion of a well known as Brinkard "A" #1 which is located NE $\frac{1}{4}$, SE $\frac{1}{4}$, Sec 30, T22S, R32E. This letter was written to you March 15, 1956.

Since the plan for dualing the well is just now ready to be executed, I felt you should be again made aware of our intentions.

As stated in the letter we will open up the Tubb gas zone and continue to produce from the present Brinkard zone.

If you as offset operators object to this operation please let me know immediately as we plan to carry out the program outlined in the previous letter.

Thank you very much.

PCW/gk

Sincerely yours,
Paul G. White
