Gulf Oil Corporation
P. O. Box 670
Hobbs, New Mexico

Gentlemen:

By letter from this office dated October 20, 1978, you were advised that your Scarborough Estate Well No. 2 located in Unit H of Section 31, T-22-S, R-38-E, would be reclassified as a gas well in the Blinebry Oil & Gas Pool effective January 1, 1979. The reclassification was occasioned by your reported gas-oil ratio of 90,333 to 1. Since that time a revised Form C-116 has been submitted showing a gas-oil ratio of 46,800 to 1. However, the 1978 production history for the well seems to support the originally reported ratio of 90,333 rather than the later ratio.

If, after giving this matter consideration, you still feel that the well should retain the oil well classification, please contact this office and a witnessed gas-oil ratio test will be scheduled.

Yours very truly,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District 1
