Santa Fe, New Mexico 87504

Attention: Mr. William J. LeMay - Director

Dear Mr. LeMay:

Chevron U.S.A. Inc. respectfully requests administrative approval for a reclassification of the Scarborough Estate #5 from an oil well to a gas well and creation of a non-standard 40 acre gas proration unit.

Well No. 5 needs to be reclassified as a gas well, per OCD guidelines, as the GOR is higher than 50,000 to 1. A non-standard 40 acre gas proration unit has to be formed for well No. 5 to be dedicated to. The location of the proposed new proration unit is the NW/4 SE/4, Unit J, Section 31, T22S, R38E.

A copy of this administrative application is being provided to our offset operators via Certified Mail. Attached is a commercial map and a Form C-102 plat illustrating the proration unit acreage and well location. Also included is a copy of the letter sent to our offset operators.

October 25, 1994

If you have any questions, or if you require further information, please contact Lloyd Trautman at (915) 687-7152.

Sincerely,

L. V. Trautman  
Sr. Petroleum Engineer  
New Mexico Area

Gentlemen:

Attached is a copy of an administrative application for NMOCD approval for a reclassification of the Scarborough Estate #5 from an oil well to a gas well and creation of a non-standard 40 acre gas proration unit.

The GOR of the Scarborough Estate #5 has increased above the 50,000 to 1 limit for oil wells in the Blinebry field. With this change, non-standard 40 acre gas proration unit needs to be approved.

If you have any questions about the application, please contact Lloyd Trautman at (915) 687-7152.

Sincerely,

A handwritten signature in cursive script that reads "L. V. Trautman".
