DUAL COMPLETION The Texas Company A. H. Blinebry (NCT-3) Well No. 1 Blinebry (Oil) & Tubb (Gas) Pools Lea County, New Mexico

New Mexico Oil Conservation Commission Box 2045 Hobbs, New Mexico

Gentlemen:

The Texas Company has completed the A. H. Blinebry (NCT-3) Well No. 1 as an oil-gas dual in the Blinebry (Oil) and Tubb (Gas) Pools, Lea County, New Mexico. Attached are the necessary forms to be submitted following dual completion.

The Texas Company originally submitted an application for administrative approval, dated August 28, 1958, to dually complete the subject well as a gas-gas dual in the Blinebry and Tubb Pools. Due to unanticipated oil production from the Blinebry, we are in the process of preparing a revised application accordingly. Offset operators have been asked for waivers and as soon as they are received we will immediately submit the revised application.

Yours very truly,

THE TEXAS COMPANY
