Gentlemen:

It is respectfully requested that the Oil Conservation Commission authorize administratively the reduction of the Blinbry non-standard gas proration unit currently composed of the E/2 W/2 Section 32 and dedicated to the Cities Service Petroleum Company's State P #1 located 1980' FWL, 1980' FWL Section 32 to an area composed of the SE NW, E/2 SW (120 acres) Section 32, all descriptions in T-22S, R-3EE, Lea County, New Mexico.

In support of this application, the following information is submitted:

- (1) Order R-1095 authorizes the Blinbry and Tubbs non-standard gas proration units to be composed of the E/2 W/2 Section 32.
- (2) Order DC-413 authorizes dual completion of the Cities Service Petroleum Company's State P #1 in the Blinbry and Tubbs zones.
- (3) Pan American Petroleum Corporation has successfully recompleted their State S #1 located 1900' FWL, 660' FWL Section 32 as a Blinbry oil well and desires to have the NE NW Section 32 removed from the Blinbry non-standard gas proration unit currently assigned to the Cities Service Petroleum Company's State P #1 so that an oil allowable may be assigned this well.

ILLEGIBLE

- (4) The Communitization Agreement between Cities Service Petroleum Company and Pan American Petroleum Corporation concerning the Blinbry non-standard gas proration unit will be amended pending the outcome of this request.

A plat is attached showing the current Blinbry non-standard gas proration unit outlined in red and the proposed Blinbry non-standard gas proration unit shaded in yellow. Copies of this application have been sent each offset operator.
