Re: Application to Dually Complete Cities
Service Oil Company's State "P" No. 1,
Tubbs Gas and Blinebry Gas Pools, Lea
County, New Mexico

will make oil in
one zone

Gentlemen:

By means of this letter of application Cities Service Oil Company wishes to state the following:

1. That Cities Service Oil Company makes application for administrative approval to dually complete and produce its State "P" #1.
2. That Cities Service Oil Company's State "P" #1 located 1980 FNL & 1980 FWL of Sec. 32-T22S-R38E was completed on December 10, 1946, in the Drinkard formation at a total depth of 6983' with 5½" casing cemented at 6896' and is currently producing as an oil well.
3. That Cities Service Oil Company propose to dually complete their State "P" #1 in the following manner:
 - a. Run a cement retainer at 6350'.
 - b. Squeeze the Drinkard formation through the cement retainer with 350 sacks of cement leaving approximately 10' of cement on top of retainer.
 - c. Perforate the 5½" casing within the approximate intervals of 6058-6110' and 6150'-6270' in the Tubbs formation of the Tubbs Gas Pool.
 - d. Set a production packer above these perforations at 6000'.
 - e. Perforate the 5½" casing within the approximate intervals of 5575'-5630' in the Blinebry formation of the Blinebry Gas Pool.
 - f. Produce the Tubbs gas through the tubing and the Blinebry gas through the tubing-casing annulus.
4. That the attached Exhibit "A" shows the location of said well and the surrounding wells and lease holders.
5. That the manner and method of dually completing, which is shown in the attached diagrammatic sketch marked Exhibit "B", is mechanically feasible and will prevent co-mingling of fluids and gases from the two reservoirs as required by New Mexico Oil Conservation Commission.
6. That copies of this application have been sent to operators of all leases directly or diagonally offsetting the said State "P" lease of the applicant as required by New Mexico Oil Conservation Commission Rule 112-A for Dual Completions.

It is therefore respectfully requested that the Conservation Commission grant the applicant permission to dually complete this well in accordance with the rules and regulations of the Commission.

Respectfully Submitted

CITIES SERVICE OIL COMPANY
