

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS NOTICES

HOBBES OFFICE

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Place

November 4, 1947

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the STANOLIND OIL & GAS CO.

STATE "T"

Well No. 1 in SW/4

Company or Operator LEA of Sec 32, T. 22S, R. 38E, N. M. P. M., DRINKARD Field.
County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

This well was drilled to a total depth of 8063' in an attempt to obtain production in the Ellenburger, but was dry. A drill stem test in the Lower Drinkard from 6920' to 7150' yielded a show of oil and it is desired to test this zone by setting 5½" casing at approximately 6880' with a minimum of cement to permit recovering a maximum amount of casing in event well is not commercially productive in Drinkard Pay. It is proposed to set 5½" casing at approximately 6880' with 150 sacks of cement instead of the 480 sacks of cement shown on our Notice of Intention to Drill dated July 16, 1947.

Approved NOV 7 1947, 19____
except as follows:
