Re: Multiple Completion Application
TEXACO Inc., A. H. Blinebry (NCT-1)
Well No. 3, Tubb (Gas) and South
(Paddock) Pools, Lea County, New Mexico

ATTENTION: Mr. A. L. Porter, Jr.

Gentlemen:

TEXACO Inc. respectfully requests exception to Rule 112-A (I) to permit the dual completion of A. H. Blinebry (NCT-1) Well No. 3 in the South Paddock and Tubb (Gas) Pools, located in the SW/4 NW/4 of Section 33, Township 22 South, Range 38 East, Lea County, New Mexico. This well was previously approved by Order No. DC-724 for dually completing in the Tubb (Gas) Pool and Blinebry (Oil) Pool. Since initially completing the subject well, the production from the Blinebry zone has declined to marginal commercial value.

It is TEXACO's desire to recomplete the well in the South Paddock Pool and isolate the Blinebry by setting a packer between the Paddock and Blinebry zones and use the existing packer to separate the Blinebry from the Tubb zone as indicated on the attached diagram. This would prevent production from being obtained from the Blinebry zone as well as hold the zone in reserve for whatever commercial value it may have in the future. It is intended to place inverted oil-emulsion mud between the packers and run parallel tubing strings for producing the Paddock and Tubb zones.

Your favorable consideration of TEXACO's request would be appreciated.

Yours very truly,

H. D. Raymond
Assistant District Superintendent
