

Well No. 3 L.P.G.

Location:

SW/4 NW/4 Sec.27-22S-37E.

Use:

LPG Storage - Propane

Total Depth:

2064' from Ground Level

Note:

All measurements taken by
production department are
from zero point.

Well Location:

1650' from the west line Sec.27-22S-37E

2310' from the north Line Sec.27-22S-37E

Zero Point which is at
the top of rotary table.

Total of 1837' 8-5/8"OD
casing in well - Casing
set at 1843'.

Total of 2037' 5 1/2"OD
tubing in well.

1 Pc. 32'-7" 5 1/2"OD tubing removed from
well after washing started due to
mudding up. Deduct this from other
measurements to get correct location
of perforations.

Set perforation at
2043' - 2045'.
