Re: Application for Single Tubingless
Completion, A. H. Blinbry (NCT-4)
Well No. ~~24~~ Brunson, South (Ellen-
burger) Pool, Lea County, New Mexico

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

TEXACO Inc. respectfully requests administrative approval of an exception to New Mexico Oil Conservation Commission Rule 107 (e) for its A. H. Blinbry (NCT-4) Well No. ~~24~~. This well is a proposed single tubingless completion in the Brunson, South (Ellenburger) Pool, and is located 2100 feet from the west line and 700 feet from the south line of Section 31, T-22-S, R-38-E, Lea County, New Mexico.

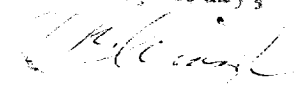

The production casing string will consist of 2-7/8 inch O.D. tubing set at approximately 7800 feet in a 7-7/8 inch hole. Completion will be through perforations from approximately 7850 feet to 7870 feet in the Ellenburger Formation. No corrosion or paraffin problems have been encountered and the well is expected to flow initially.

This zone has been approved by the New Mexico Oil Conservation Commission as a tubingless completion in other multiple completions in this area. An instance is Order No. NC-1219, TEXACO Inc. A. H. Blinbry (NCT-3) Well No. 3.

Attached is a diagrammatic sketch of the proposed tubingless completion and a plat showing the location of all wells on the A. H. Blinbry (NCT-4) Lease and all offset wells along with the name and addresses of all offset operators. A copy of this request is being sent this date to all offset operators by registered mail.

Your early consideration of this request would be greatly appreciated.

Yours very truly,

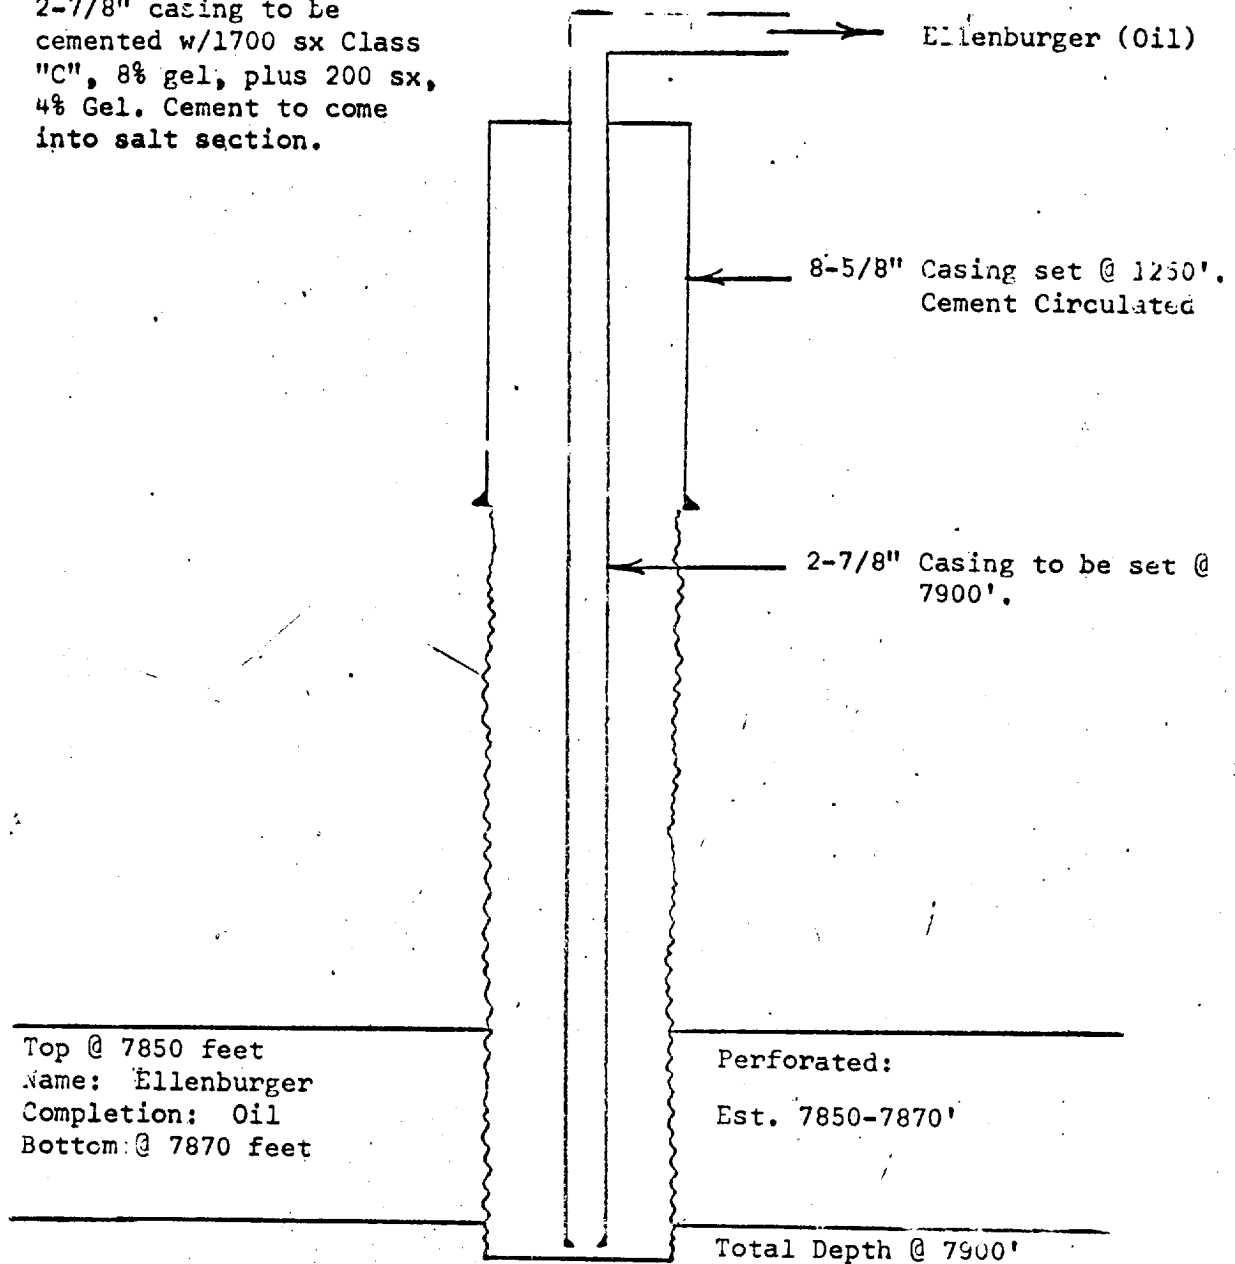

J. C. Blevins, Jr.

4, Brunson, South (Ellenburger)
Pool, Lea County, New Mexico

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

Please find a revised diagrammatic sketch of the subject well indicating it as being Well No. 4 rather than Well No. 3 as indicated on TEXACO Inc.'s Application for Single Tubingless, dated October 3, 1963.
