Box 1980  
Hobbs, New Mexico

Dear Sir:

In reply to your letter of September 21st to Ray Smith concerning his Sunshine Royalty Lease, well #1, located in Unit E, Section 17, Township 22 South, Range 38 East, Lea County, New Mexico, we filed an application for dual completion on this well on June 4, 1964. To date we have not heard from this application, however, since the Paddock zone was placed on the pump it has produced nothing but water. Of course, if this zone continues to only produce water it will be plugged off.

Yours truly,

Everett L. Smith  
Petroleum Engineer

Attention: Everett Smith, Agent

Gentlemen:

We have been holding since June of this year completion forms on the Paddock zone of your Sunshine Royalty No. 1 located in Unit E of Section 17, T-22-S, R-38-E. We are unable to approve the forms and assign an allowable for the Paddock due to the fact that no order for the dual completion of the well has been received by this office.

At your earliest convenience please advise as to the present status of the Paddock zone in this well.

Yours very truly,

OIL CONSERVATION COMMISSION
