13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Yates Petroleum Corporation respectfully requests permission to take this well 1000' deeper than originally requested (9000') on the Application for Permit to Drill dated July 17, 1995, and approved by BLM on August 9, 1995. The new total depth of the well will be 10000' and this will be to test the Bone Springs formation.

This change will not dictate a need for a larger BOP or change the H2S requirements.

The casing and cementing program will be changed accordingly.

14. I hereby certify that the foregoing is true and correct
