Re: Application for Dual Tubingless
Completion, A. H. Blinbry (NCT-
4) Well No. 5, Lea County, New
Mexico

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

Attached is TEXACO's application for dual tubingless completion for the A. H. Blinbry (NCT-4) Well No. 5, located 990 feet from the south line and 1980 feet from the east line, Unit 4, Section 31, T-22-S, R-36-E, Lea County, New Mexico. TEXACO plans to complete this well in Blinbry and Drinkard Pools. It is anticipated that all zones will be oil completions and will flow initially. Approval has been granted previously by the New Mexico Oil Conservation Commission for these zones in TEXACO Inc. A. H. Blinbry (NCT-4) Well No. 4.

Also attached is a copy of the plat showing the area immediately surrounding TEXACO's A. H. Blinbry (NCT-4) lease and a diagrammatic sketch of the proposed dual tubingless completion. It is respectfully requested that TEXACO Inc. be granted administrative approval for this application as provided for under Rule 112-A.

Very truly,

W. R. Raymond

* Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed multiple completion will result in an unorthodox well location and/or a non-standard proration unit in either or both of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.
