Re: Application for Dual Tubingless
Completion, TEKACO Inc., A. H.
Blinebry (NCT-1) Well No. 21,
Blinebry and Drinkard Pools,
Lea County, New Mexico.

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

TEKACO Inc. respectfully requests administrative approval for dual tubingless completion of A. H. Blinebry (NCT-1) Well No. 21 in the Drinkard and Blinebry Pools as indicated on the attached "Application for Multiple Completion", schematic diagram, and lease plat. This well has been approved as a single tubingless completion in the Blinebry Pool by New Mexico Oil Conservation Commission letter dated January 4, 1965, and, therefore, it is respectfully requested that this permit be cancelled. Subsequent to this single tubingless approval, additional evaluation of the Drinkard reservoir indicated it to be prospective at the location of subject well.

Yours very truly,

H. D. Raymond
Assistant District Superintendent

*Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed multiple completion will result in an unorthodox well location and/or a non-standard proration unit in one or more of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.
