Dan Gillett Signature

*Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed multiple completion will result in an unorthodox well location and/or a non-standard proration unit in one or more of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.

2-7/8" Production casing to be cemented with 650 sacks of Trinity Lite Water cement followed by 350 sacks Incor, 4% gel. Cement volume equals 154% of the calculated annular volume from TD to base of salt expected at 2620'.
