Attention: Mr. Michael E. Stogner

Petroleum Engineer

Gentlemen:

Texaco Inc. respectfully requests Administrative approval to commingle production from the Blinebry and Tubb pools in the wellbore of the A. H. Blinebry Federal NCT-1 Well No. 32 in accordance with NMOCD Rule 303-C. The Blinebry and Tubb have previously been approved for downhole commingling.

This well meets all prerequisites for downhole commingling, as described in NMOCD Rule 303-C,1(a-h). The ownership of these zones is common, including working interest, royalty, and overriding royalty. These zones have been surface commingled on this lease and no incompatibility of the fluids has been found.

Allocation of these oil zones will be as follows: 75% to the Blinebry and 25% to the Tubb.

No objection - Lmor - JAA - ROP
