On April 26, 1967, the captioned well was temporarily abandoned in order to test the Blinbry perforations at a shallower depth. Having gained the information sought from the Blinbry, we would like to re-complete this well as a Blinbry and Granite Wash dual completion. Please see the accompanying diagrammatic sketch for the proposed multiple completion. No changes from the original dual completion are anticipated.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
