17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

It is proposed to change the drilling plans and drill from 0 - 4000' with cable tools instead of rotary tools. The following casing programs will be followed:

13-3/8" csg. @ 200' w/circ. cmt. to surf.
10-3/4" csg. @ 600' w/set. (Will pull before running 8-5/8").
8-5/8" csg. @ 1250' w/500 sx. (circ. cmt. to surf.).

At 4000', we plan to put on a rotary rig and drill to the originally projected total depth of 7300'. No changes are anticipated from the original plans from the time we move on the rotary rig.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
