Attention: Mr. A. L. Porter, Jr.

Re: Application of Gulf Oil Corporation for its Subsidiary, Warren Petroleum Corporation, for Salt Water Disposal, Lea County, New Mexico

Gentlemen.

F. O. Mortlook State State H. A. Rankin State State

> Gulf Oil Corporation respectfully requests an Examiner Hearing to consider its application for approval to dispose of salt water in the Warren Petroleum Corporation Eunice Plant No. 161, Salt Water Disposal Well No. 1, to be drilled at a location 2255 feet from the north line and 908 feet from the east line of Section 3-228-37E, Lea County, New Mexico.

The salt water to be disposed of will be produced from LPG storage wells when product is injected into the wells. These storage wells are used in conjunction with the operation of the Warren Petroleum Corporation Eunice Plant No. 161. The attached plat shows the proposed salt water disposal well circled and colored in red. It is proposed to dispose of this salt water in the open hole San Andres interval 4100'-4900' or less. It is proposed to drill to lost circulation which is anticipated at approximately 4500'-4600', or to a total depth not to exceed 4900'. A schematic diagram of the proposed salt water disposal well is attached.

The disposal of this produced salt water underground is necessary to comply with the Commission's Order R-3221, which prohibits surface disposal in lined pits after January 1, 1969.

A copy of this application has been furnished to offset operators.

Respectfully submitted,

GULF OIL CORPORATION

Jayl

M. I. Taylor
