Re: Federal GPS #1-0 Sec 6, T22S, R38E
Downhole Commingle (DHC-78 amended)

Gentlemen:

Due to an error in our office the above-referenced well was not moved from the Wantz-Abo Pool to the South Brunson-Drinkard/Abo Pool when the Drinkard and Abo pools in this area were redefined by R-8593.

Therefore, when you perforated the Drinkard zone we asked you to obtain an amendment to DHC-78 to cover the addition of the Drinkard. Upon further study it was discovered that this well should have been moved to the South Brunson-Drinkard Abo Pool thus allowing you to perforate the Drinkard without need for additional DHC approval.

So to make a long story short, please begin reporting production and gas/oil ratio tests based on the percentages established by DHC-78 as amended June 7, 1989.

Blinebry

Abo & Drinkard (South Brunson Drinkard/Abo Pool)

oil -	1%	gas	0%
oil -	99%	gas	100%

If you have questions, please contact Evelyn Downs at (505) 393-6161.

Very truly yours,

OIL CONSERVATION DIVISION

Re: Federal GPS #1-O, Sec 6, T22S, R38E

Gentlemen:

The above referenced well, currently listed in the proration schedule as producing from the Wantz-Abo Pool is redesignated as producing from the South Brunson Drinkard-Abo Pool, per Division Order R-8593.

Please amend your records to show this change in pool designation.

Very truly yours

William J. LeMay
Director
Oil Conservation Division
P. O. Box 2088
Santa Fe, New Mexico 87504-2088

SUBJECT: Change in Pool Designation

Dear Mr. LeMay:

Division Order R-8593 contracted the Drinkard and Wantz Abo Pool, adding the area to the South Brunson-Abo and redesignating the pool as the South Brunson Drinkard Abo.

The American Exploration Company Federal GPS Well No. 1 located in Unit O of Section 6, Township 22 South, Range 38 East, is located in the area affected.

Therefore, the above referenced well currently listed as producing from the Wantz-Abo Pool, is redesignated as producing from the South Brunson Drinkard-Abo Pool.

Very truly yours
