13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

In order to comply with the request of your letter of September 27, 1994, we request your approval for the following:  
Test the casing to 500# for 15 minutes with pressure loss not to exceed 10%. Check all casing valves for communications. Be allowed to leave the well in T.A. status for a period of one(1) year. We feel that plugging and abandoning this well now would result in loss of production of oil and gas in the future.
