RE: RECLASSIFICATION OF WELL
NEW MEXICO M STATE #101
Unit A, Sec. 19, T22S, R37E
JALMAT TANSIL-YATES-SR

Gentlemen:

We have received a gas/oil ratio test which will reclassify the above-referenced well from a Jalmat oil well to a Jalmat gas well.

In order to comply with the requirements for reclassification please submit the following:

- 1) C-102, acreage dedication plat, outlining the NE/4 of Sec. 19 which was approved by NSP-913 as a Jalmat gas proration unit for this well. C-102 must be signed by operator.
- 2) C-104 designating a dry gas transporter and condensate transporter. Also, under reason for filing 'other' please state reclassification from oil to gas, and indicate if this gas well gas is separately metered.

If you have questions concerning this matter, please contact Evelyn Downs at (505) 393-6161.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
