Re: Reclassification of Well -- Jalmat Pool  
J. F. Janda NCT-E #4-B Sec. 21, T23S, R36E

Gentlemen:

Due to the recently submitted gas/oil ratio test for the above-referenced well, it will be reclassified from a gas well to an oil well in the Jalmat Pool effective July 1, 1991, and the gas allowable cancelled effective that date.

This test does not conform with the previous characteristics of this well and if you feel this test does not reflect the proper classification of this well, please submit another test for our consideration by May 17, 1991.

If the well is to be reclassified to oil, please furnish this office with a revised acreage dedication plat, Form C-102, outlining 40 acres dedicated to oil well classification. Also, if the gas transporter changes due to reclassification, please submit Form C-104 so indicating.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
