Ref: Application for Administrative
Approval to Dually Complete
Hendrix Cossatot "H" No. 2
Section 13, T-22-S, R-37-E
Lea County, New Mexico

Gentlemen:

Enclosed herewith is my application for administrative approval of the dual completion of the John H. Hendrix Cossatot "H" No. 2 in the Wantz Granite Wash Pool and the Drinkard Pool. I request that approval be granted to produce the Drinkard Zone up the tubing-casing annulus should the producing gas-oil ratio be in excess of 100,000-1. If the GOR is less than 100,000-1, the completion would be a conventional dual using two strings of 2 1/16" tubing. This would be essentially similar to New Mexico Oil Conservation Commission Order No. R-4485 that pertained to my Cossatot "B" No. 2 and No. 3.

Yours very truly,

John H. Hendrix
