Dear Mr. Scarbrough:

Your request for a 90-day extension for compliance with the packer leakage test requirement for the above-referenced well has been received.

I believe that June 30th should allow adequate time for partner approval and completion of the needed repair work. I have no problem with the continued operation of the well until the work can be initiated, but unless we have received a report on your repairs and a packer leakage test by June 30th, your allowable will be cancelled.

Very truly yours,

OIL CONSERVATION DIVISION
