Re: Exception to Rule 402

Gentlemen:

As requested in your letter of September 27, 1989, and for the reason outlined therein, the well listed below will be exempt from the shut-in pressure test requirement of Division Rule 402. This exemption is being made on a non-expiring basis pending workover or shutin of the well.

ANTELOPE RIDGE MORROW GAS POOL

State "35" Well #1-K Sec. 35, T23S, R34E

Very truly yours,

OIL CONSERVATION DIVISION

Re: Texas West Oil & Gas Corporation
Antelope Ridge Atoka (Gas)
Antelope Ridge Morrow (Gas)

Gentlemen:

We attach herewith, tests on our State 1 Federal 9 and State 2 gas wells in the subject field. Please note that we did not test the State 35 and we request that you grant an exception to this well. The well makes a sufficient amount of water so that if it is shut in, the well loads up and dies and it is very difficult to return to production.

We would appreciate hearing from you on this matter. If necessary, we will test the well.

Yours very truly,

R. S. Guenther
