Re: Annual Gas Well Shut-in
Pressure Test - Antebellum Unit #1
Section 21-T23S-R34E PM

Gentlemen:

We are in receipt of your letter of June 19, 1986 requesting the annual gas well shut-in pressure test for our Antebellum Unit No. 1 well. Due to the danger of the well water logging by an extended shut-in period, and the well being produced by compression, we are requesting that you grant Century Production, Inc. a variance for the subject shut-in pressure test.

Your favorable consideration in approving such variance will be most appreciated. Should you require additional information, please advise.

Very truly yours,

A handwritten signature in cursive script, reading 'William E. Hill', written in dark ink.

William E. Hill
Vice President - Operations
