Re: N.G. Penrose #3-G  
Section 13, T22S, R37E

Gentlemen:

According to the C-103 received on the above-referenced well, the Blinebry zone has been opened and downhole commingled with the the Drinkard and Granite Wash. In order that we may assign an allowable to the Blinebry zone, it will be necessary for you to file a C-104 for the Blinebry (show only percentage to ge allocated to the Blinebry as the test).

Also, DHC-195 as amended, indicates the percentages are to be approved by the District Office. In order that we may do this, please submit a written request with your C-116 showing the breakdown.

If you have further questions, please contact Evelyn Downs at 505-393-6161.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
