RE: Application for a Non-Standard Location
Elliott B-12 No. 2, NW/4 NW/4 Section
12, T22S - R37E, Lea County, New Mexico
Tubb Gas Pool

Gentlemen:

John H. Hendrix Corporation respectfully requests administrative approval for a non-standard location at 567' FNL and 467' FWL, Section 12, T22S - R37E, Lea County, New Mexico for its proposed Tubb Gas recompletion in its Elliott B-12 No. 2. Acreage dedicated would be a standard 160 acre communitized unit. A shallow producing well already exists at the standard location of 660' FNL and 660' FWL.

Approval of this request will protect correlative rights, promote conservation, and encourage the efficient recovery of gas reserves. The proposed proration unit will consist of contiguous lots and lie wholly within a single governmental section. The length or width of the proration unit will not exceed 5280 feet. The well is not located inside 330' from any lease or quarter quarter section line.

By copy of this letter, we are notifying the offset operators of this proposed non-standard location. If these operators have no objections, we ask that they execute the attached waiver and return one copy to the N.M.O.C.D. and another to me at the letterhead address.

Yours very truly,

Ronnie H. Westbrook
