Re: Well Producing in Excess of Assigned Allowable  
Elliott B-12 #2-D Sec. 12, T22S, R37E  
Wantz-Granite Wash Pool

Gentlemen:

From production reported on your January 1989 C-115 it appears the above-referenced well is over producing its assigned allowable in the Wantz-Granite Wash Pool.

This is a downhole commingled well South Brunson Drinkard/Abo and Wantz Granite Wash and your allowable has been reduced due to an excessively high GOR.

Please reduce the production from this well so it will conform with the assigned allowable.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
