## THIS IS AN AMENDED REPORT. CHECK THE BOX LABELED AMENDED REPORT ... THE TOP OF THIS DOCUMENT

Report all gas volume at 15.025 PSIA at 60°. Report all oil volumes to the nearest whole barrel. A request for allowable for a newly drilled or deepened well must be accompanied by a tabulation of the deviation tests conducted in accordance with Rule 111.

All sections of this form must be filled out for allowable requests on new and recompleted wells. Fill out only sections I, II, III, IV, and the operator certifications for changes of operator, property name, well number, transporter, or other such

A separate C-104 must be filed for each pool in a multiple completion. Improperly filled out or incomplete form may be returned to operators unapproved.

1. Operator's name and address

Operator's OGRID number. If you do not have one it will be assigned and filled in by the District office.

Reasons for filing code from the following table:

NW New Well

- Recompletion
- Change of Operator Add oil/condensate transporter Change oil/condensate transporter
- RC CH AO CO AG CG
- Add gas transporter
  Change gas transporter
  Request for test allowable (Include volume requested) RT

If for any other reason write that reason in this box.

- The API number of this well
- The name of the pool for this completion
  The pool code for this pool
  The property code for this completion

- 4. 5. 6. 7. 8. 9. The property name (well name) for this completion The well number for this completion The surface location of this completion NOTE: If the United State government survey designates a Lot Number for this location use that number in the 'UL or lot no.' box. Otherwise use the OCD unit letter.

  The bottom hole location of this completion

- Lease code from the following table:
  - F Federal
  - S P State
  - Fee

  - Jicarilla Navajo Ute Mountain Ute U
- Other Indian Tribe 13.
  - The producing method code from the following table: Flowing
- P Pumping or other artificial lift
  MO/DA/YR that the completion was first connected to a gas transporter
- 14. 15. 16. 17.

- 14. MO/DA/YR that the completion was first connected to a gas transporter
  15. The permit number from the District approved C-129 for this completion
  16. MO/DA/YR of the C-129 approval for this completion
  17. MO/DA/YR of the expiration of C-129 approval for the completion
  18. The gas or oil transporter's OGRID number
  19. Name and address of the transporter of the product
  20. The number assigned to the POD from which this product will be transported by this transporter. If this is a new well or recompletion and this POD has no number the district office will assign a number and write it here.
  21. Product code from the following table:
  - Product code from the following table:
    - 0 Oil
  - Ğas
- The ULSTR location of this POD if it is different from the well completion location and a short description of the POD (Example: "Battery "Jones CPD" etc.) 22. A", 23.
- The POD number of the storage from which water is moved from this property. If this is a new well or recompletion and this POD has no
- 23. The POD number of the storage from which water is moved from this property. If this is a new well or recompletion and this POD has no number the district office will assign a number and write it here.

  24. The ULSTR location of this POD if it is different from the well completion location and a short description of the POD (Example: "Battery A Water Tank". "Jones CPD Water Tank", etc.)

  25. MO/DA/YR drilling commenced

  28. MO/DA/YR this completion was ready to produce

  27. Total vertical depth of the well

  28. Plugback vertical depth

  29. Top and bottom perforation in this completion or casing shee and TD if openhole

- 29. Top and bottom perforation in this completion or casing shoe and TD if openhole
  30. Write in 'DHC' if this completion is downhole commingled with another completion or 'MC' if there is more than one non-commingled completion in this well bore. Attach actual completed well bore diagram.

  31. Inside diameter of the well bore
- 31. 32.
- 33.
- 34
- The 35.
- Outside diameter of the well bore
  Outside diameter of the casing and tubing
  Depth of casing and tubing. If a casing liner, show top and bottom.
  Number of sacks of cement used per casing string
  following test data is for an oil well it must be from a test conducted only after the total volume of load oil is recovered.
  MO/DA/YR that new oil was first produced
  MO/DA/YR that gas was first produced into a pipeline
  MOIDAIYR that the following test was completed
  Length in hours of the test
  Flowing tubing pressure a oil wells. Shut in tubing pressure a gas wells.
- 36. 37.
- 38. 39.
- Flowing tubing pressure oil wells Shut-in tubing pressure gas wells Flowing casing pressure oil wells Shut-in casing pressure gas wells Diameter of the choke used in the test 40.
- 41. 42.
- Barrels of oil produced during the test 43
- Barrels of water produced during the test
  MCF of gas produced during the test
  Gas well calculated absolute open flow in MCF/D 45. 46.
- The method used to test the well: F Flowing
  - P Pumping
  - Swabbing
- If other method please write it in
- 47. The signature, printed name, and title of the person authorized to make this report, the date this report was signed, and the telephone number to call for questions about this report

  48. The previous operator's name, the signature, printed name, and title of the previous operator's representative authorized to verify that the previous operator no longer operates this completion, and the date this report was signed by that person
