Re: Downhole Commingle Order DHC-768
New Mexico S State #30-I Sec. 2, T22S, R37E
Drinkard, Wantz-Abo and Wantz-Granite Wash Pools

Gentlemen:

DHC-768 approving the commingling of Drinkard, Abo and Granite Wash production in the wellbore of the subject well has been received from our Santa Fe office.

Since the Abo zone has never had production you will need to file the necessary completion reports to establish allowable for Wantz-Abo Pool. When all three zones are actually commingled you should submit Form C-103 so indicating. This report should be accompanied by a commingled production test on Form C-116 and a letter request that your recommended allocation formula be accepted.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
