

Memo

From

J. W. RUNYAN
Geologist

Jerry

To

- (1) Producing from same geologic zone in Abo as wantz-Abo (pool) completions.
- (2) On same geologic structure as wantz-Abo pool
- (3) No indication of reservoir separation (if there is actual separation it is stratigraphic) and the Abo has no history of stratigraphic pinchouts in this area.
- (4) Less than $\frac{1}{2}$ mile from pool boundary of wantz Abo pool.

Recommend that this well be extended to wantz Abo - or recommend hearing to put proof of separation on operator
