17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

The J. L. Muncy #5 is a dual Blinebry-Wantz Granite Wash. The purpose of this work is to add perforations to the Granite Wash and frac this zone. On December 10, 1983 this zone was perforated at 7292, 94, 98, 7304, 7306 (total 9 holes). Acidized this formation (7285 - 7401) with 3200 gallons 7 1/2% acid followed with 25,000# gelled kerosene carrying a total of 31,000# 20/40 mesh sand. On December 14 this zone was again acidized in an attempt to break down the gelled kerosene using 3000 gallons 7 1/2% HCl.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
