

By authority granted me under the provisions Rule 2(d) of the "*Special Rules and Regulations for the Jalmat Gas Pool*", as promulgated by Division Order No. R-8170, as amended, and Division Rules 104.D and 104.F(2), the above-described 440-acre non-standard GPU and unorthodox Jalmat gas well location for the above-described State "A" A/C-1 Well No. 112 are hereby approved.

Also, Raptor is hereby authorized to simultaneously dedicate Jalmat gas production from all three of the above described wells and is also permitted to produce the allowable assigned the subject 440-acre GPU from all three wells in any proportion.

FURTHERMORE, the Division's records indicate that the previously existing 320-acre GPU, comprising the SE/4 of Section 20 and the NE/4 SW/4, S/2 SW/4, and SW/4 SE/4 of Section 21, approved by Division Order No. R-9073, issued in Case No. 9775 dated October 28, 1988 [Paragraph No. (14) of Exhibit "A"], ceased to exist when its only dedicated well, the State "A" A/C-1 Well No. 8 (**API No. 30-025-09370**), located at an unorthodox gas well location for this 320-acre GPU (also approved by Division Order No. R-9073) 660 feet from the South line and 1980 feet from the East line (Unit O) of Section 21, was plugged and abandoned in June, 1993. Therefore, that portion of Division Order No. R-9073 as described above shall be placed in abeyance until further notice.

IT IS FURTHER ORDERED THAT, as a contingency of approval, Raptor Resources, Inc. shall submit corrected OCD Forms C-102 for each well showing the proper acreage now dedicated to these wells to the Hobbs District Office of the Division. Failure to file these forms within 20 days from the date of this order will result in the cancellation of allowable for this GPU.

Sincerely,

Lori Wrotenberg  
Director
