Re: Downhole Commingle Orders DHC-769 & DHC-770
New Mexico S State #36-B 2-22-37
New Mexico S State #37-C 2-22-37

Gentlemen:

The above-referenced orders approving the downhole commingling of the Wantz-Abo and Wantz-Granite Wash zones in the referenced wells have been received from our Santa Fe office.

When these zones are actually commingled in the wellbore, please submit a subsequent report of the work on Form C-103 and also submit a commingled production test on Form C-116 broken down according to the percentage you are requesting for each zone, along with a letter requesting that these percentages be accepted for allocation purposes giving the criteria used to determine this formula.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
