Re: Request for Non-standard Unit,  
Jalmat Gas Field, Lea County,  
New Mexico

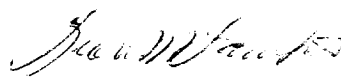

Dear Sir:

O  
Dalport is planning to drill the #3 A. L. Christmas, 2310' FEL, 330' FSL, Sec. 25, 22S-36E, on a non-standard 160 acre gas unit comprising the SE 1/4 of Sec. 25. Application has been made with the Commission for an unorthodox location. This well will replace our #1 A. L. Christmas, 660' FS & 1980' FEL, Sec. 25, which has been abandoned.

In accordance with Rule 5-C-3 of Order 1670, we respectfully request administrative approval of this non-standard unit.

P  
Enclosed are three copies of C-102 and area plat, as well as certified mail receipts showing notification of offsetting operators, Arco, Exxon and McCasland.

Very truly yours,

  
Leon M. Lampert
