Re: Recompletion to Blinebry
New Mexico S State #39-D
Section 2, T22S, R37E

Gentlemen:

We have approved your intention to recomplete the above-referenced well from the Wantz Abo Pool to the Blinebry Oil and Gas Pool. This well is located within the boundary of an established 160-acre Blinebry gas proration unit dedicated to #14-C. (NSP-955 consisting of N/2 NW/4, SE/4 NW/4 & SW/4 NE/4 of Sec. 2)

If well #39-D is completed as an oil well in the Blinebry pool you will need to have NSP-955 reduced to 120 acres. If well #39-D is completed as a gas well in the Blinebry Pool you will need approval of the non-standard gas well location and simultaneous dedication to the established 160-acre proration unit.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I

ed

*1-26-90 made application for 40 a NSP for #14
NSP-1599 - Reduced ^{gas} ac dedicated 40 ac to ac.
OK to assign oil allow to #39.*
