RE: RL #1, UNIT L, S16-T23S-R33E

Gentlemen:

An Oil Conservation Division Representative recently inspected the plugged well site above, in an attempt to release the location.

However, before this can be done the following must be completed.

1. Correct the dry hole marker to state correct operator name (currently states Gulf).
2. State the unit letter on the dry hole marker.
3. Remove anchors from location.

When the above has been completed, sign and return this letter to the address stated above.

Sincerely,

Gary W. Wink for Chris Williams
