Re: Application for Authority to Dually Complete Marathon Oil Company's
Walter Lynch Well No. 8, Unit E, Section 1, Township 22-South,
Range 37-East, Lea County, New Mexico

Gentlemen:

Marathon Oil Company respectfully requests administrative approval for the dual completion of Walter Lynch Well No. 8 for production of oil from the Wantz Granite Wash Pool and production of oil from the Drinkard Pool. Attached are the New Mexico Oil Conservation Commission Form C-107, Application for Multiple Completion, fully executed, together with a diagrammatic sketch of the multiple completion and a plat with the location of all wells on Marathon Oil Company's lease and all offset wells, along with other supporting data required by Commission rules.

Marathon proposes to install a single packer at 7128', segregating the Wantz Granite Wash from the Drinkard. The Wantz Granite Wash will be produced by flowing through a string of 2 3/8" tubing latched onto the packer at 7128'. The Drinkard will be produced by flowing through a string of 2 1/16" tubing hung at 6340'. It is Marathon's opinion that the multiple completion of the Walter Lynch No. 8, herein described, will effectively prevent communication between the two zones and that the approval of this dual completion will not cause waste and will not infringe upon the correlative rights of any other operator in either of the pools.

A copy of the application, along with attachments listed on New Mexico Oil Conservation Commission Form C-107, Items 4(A), (B), and (C) have been furnished to all interested parties known to Marathon Oil Company.

Respectfully submitted,

A. R. Kovacevich

Anthony R. Kovacevich
Production Engineer

Offset Operators

NEW MEXICO OIL CONSERVATION COMMISSION
SANTA FE, NEW MEXICO
APPLICATION FOR MULTIPLE COMPLETION

Form C-107
5-1-61

Operator Marathon Oil Company		County Lea		Date November 1, 1977
Address P. O. Box 2409, Hobbs, New Mexico 88240		Lease Walter Lynch		Well No. 8
Location of Well E	Unit 1	Section 22-South	Township 37-East	

1. Has the New Mexico Oil Conservation Commission heretofore authorized the multiple completion of a well in these same pools or in the same zones within one mile of the subject well? YES ☒ NO ☐
2. If answer is yes, identify one such instance: Order No. MC-2244; Operator Lease, and Well No.: Marathon Oil Company Walter Lynch No. 6

3. The following facts are submitted:	Upper Zone	Intermediate Zone	Lower Zone
a. Name of Pool and Formation	Drinkard	-	Wantz Granite Wash
b. Top and Bottom of Pay Section (Perforations)	6307-6354'	-	7175-7276'
c. Type of production (Oil or Gas)	Oil	-	Oil
d. Method of Production (Flowing or Artificial Lift)	Flowing		Flowing

4. The following are attached. (Please check YES or NO)

Yes	No	
☒	☐	a. Diagrammatic Sketch of the Multiple Completion, showing all casing strings, including diameters and setting depths, centralizers and/or turbolizers and location thereof, quantities used and top of cement, perforated intervals, tubing strings, including diameters and setting depth, location and type of packers and side door chokes, and such other information as may be pertinent.
☒	☐	b. Plat showing the location of all wells on applicant's lease, all offset wells on offset leases, and the names and addresses of operators of all leases offsetting applicant's lease.
☒	☐	c. Waivers consenting to such multiple completion from each offset operator, or in lieu thereof, evidence that said offset operators have been furnished copies of the application.*
☒	☐	d. Electrical log of the well or other acceptable log with tops and bottoms of producing zones and intervals of perforation indicated thereon. (If such log is not available at the time application is filed it shall be submitted as provided by Rule 112-A.)

5. List all offset operators to the lease on which this well is located together with their correct mailing address.

Sun Oil Company, Box 1861, Midland, Texas 79701

Cities Service Oil Company, Box 1919, Midland, Texas 79701

Getty Oil Company, Box 249, Hobbs, New Mexico 88240

Gulf Energy & Minerals Co.-US, Box 670, Hobbs, New Mexico 88240

Exxon Company, 1700 W. Broadway, Andrews, Texas 79714

Atlantic Richfield Company, Box 1610, Midland, Texas 79701

6. Were all operators listed in Item 5 above notified and furnished a copy of this application? YES ☒ NO ☐. If answer is yes, give date of such notification November 1, 1977.

CERTIFICATE: I, the undersigned, state that I am the Production Engineer of the Marathon Oil Company (company), and that I am authorized by said company to make this report; and that this report was prepared under my supervision and direction and that the facts stated therein are true, correct and complete to the best of my knowledge.

A. R. Kovacevich
A. R. Kovacevich Signature

*Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed multiple completion will result in an unorthodox well location and/or a non-standard proration unit in one or more of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.
