Downhole Commingle Blinebry and Drinkard

Gentlemen:

We have received a copy of DHC-735 authorizing the downhole commingling of the Drinkard and Blinebry zones in the above-referenced well. Since our records only reflect a completion in the Drinkard zone, please submit a C-104, C-105, and C-102 acreage plat for the Blinebry interval. Only show the correct percentage of the most recent test for the Blinebry.

Since this was an oversight and this authority has been issued after-the-fact, please commence filing your production for each zone on your August 1989 production report.

If you have any questions, please contact Evelyn Downs at 393-6161.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
