

Proposed Development Plan for Surface Use

Amoco Production Company's Federal "H" Well No. 1
Unit L, 1980' FSL X 660' FWL Sec 26, T-23-S, R-33-E, Lea County (Exploratory Well)

1. Existing roads including location of exit from main highway.
Detailed map showing drillsite location in relation to the nearest town and all existing roads within one mile of the wellsite are shown on Exhibit A. From Eunice, go 1 mile south on Hwy 18. Turn west on blacktop and go 9 miles. Turn south for 4 miles, turn west for 11.4 miles, then south for 4 miles. Turn west on dirt road for 2 miles. 1980' of new road will be built north to location.
2. Planned access roads.
1980' of new road will be built from existing road to location. Caliche will be used.
3. Location of existing wells.
All existing wells within ^{two} one mile radius are shown on Exhibit C .
4. Location of tank batteries and flow lines.
If the well is commercially productive the production facilities (i.e. tanks, separators and treaters) will be located on the southeast end of the drilling pad.
See Exhibit D.
5. Location and type of water supply.
Both fresh water and brine water will be obtained from XL Transportation, Jal, New Mexico.
6. Source of construction materials.
Caliche will be obtained from a new pit to be opened in the NW $\frac{1}{4}$ NW $\frac{1}{4}$. Section 35, T-23-S, R-37-E, Lea County. This is state owned surface and minerals.
7. WASTE DISPOSAL -
 - a. Drill cuttings will be disposed of in the reserve pit.
 - b. Drilling fluids will be allowed to evaporate in the reserve pit until the pit is dry.
