Attention: Mr. William J. LeMay - Director

Dear Mr. LeMay:

Chevron U.S.A. Inc. respectfully requests administrative approval for a reclassification of the Mark No. 11 from an oil well to a gas well, creation of a non-standard 80 acre gas proration unit, a non-standard gas well location, and simultaneous dedication with the Mark No. 7 well.

Well No. 11 needs to be reclassified as a gas well, per OCD guidelines, as the GOR is higher than 50,000 to 1. A non-standard 80 acre gas proration unit is proposed to dedicate to wells No. 7 and 11. The location of the proposed new proration unit is the E/2 NE/4, Section 3, T22S, R37E. Well No. 11 is located at 430' FNL and 960' FEL in Section 3, T22S, R37E, Lea County, New Mexico. This makes the well a non-standard location per the Blinebry Gas Pool regulations. Well No. 11 is non-standard to the north and west only to Chevron U.S.A..

An Administrative application for the Mark No. 7 well was submitted on October 27, 1994. This application requested the reclassification from an oil well to a gas well (due to GOR guidelines), a 40 acre non-standard gas proration unit, and a non-standard gas well location.

A copy of this administrative application is being provided to our offset operators via Certified Mail. Attached is a commercial map and a Form C-102 plat illustrating the proration unit acreage and well location. Also included is a copy of the letter sent to our offset operators.

If you have any questions, or if you require further information, please contact Lloyd Trautman at (915) 687-7152.

Sincerely,

L. V. Trautman
Sr. Petroleum Engineer
New Mexico Area

(Offset Operators)

Gentlemen:

Attached is a copy of an administrative application for NMOCD approval for a reclassification of the Mark No. 11 from an oil well to a gas well, creation of a non-standard 80 acre gas proration unit, a non-standard gas well location, and simultaneous dedication with the Mark No. 7.

The GOR of the Mark No. 11 has increased above the 50,000 to 1 limit for oil wells in the Blinebry field. With this change, a non-standard well location and a non-standard 80 acre gas proration unit is proposed.

If you have any questions about the application, please contact Lloyd Trautman at (915) 687-7152.

Sincerely,

A handwritten signature in cursive script, appearing to read "L. V. Trautman".
