Re: Reclassification of Well
Closson B #24-I
Section 30, T22S, R36E
Jalmat Pool

Gentlemen:

The recently submitted "special" gas/oil ratio test for the above-referenced well will cause the well to be reclassified from gas to oil effective December 1, 1988.

If you do not feel this test reflects the proper classification of the well, please submit another test for our consideration immediately.

If the well is to be reclassified from gas to oil, please submit the following:

- 1) C-102, acreage dedication plat for oil well classification
- 2) C-104 if gas transporter changes due to reclassification

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
