17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

On January 6 and January 7, 1984, the well was entered and a Gamma Ray Cement Bond log was run over the Cherry Canyon interval from 7400' to 6400' in 7-5/8" casing. This will be evaluated for mechanical feasibility of remedial work for the Cherry Canyon zone, which is prospective in the well bore. Upon evaluation and recommendation, this work will be commenced or the well plugged.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
