Gentlemen:

The last report we have covering any work done on the above-referenced well was October 1991. Since there has been no reported activity on this well in well over one year, please do one of the following in order to bring the well into compliance with Rule 203.

- 1) File completion report and get allowable to produce
- 2) Obtain TA permit by demonstrating mechanical integrity of wellbore, or
- 3) Plug and abandon well (Intent to PA approved 10/8/91- but no subsequent report has been filed.)

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
