Gentlemen:

Your intent to re-enter the above-referenced well was approved in August 1991. We have two sundry reports indicating that you perforated the well and treated several zones, but no completion report was ever filed.

We also approved your intent to plug this well in October 1991 but no plugging report has been received.

Please file completion report and request a TA permit by demonstrating mechanical integrity of the well bore, or plug and abandon the well.

Very truly yours,

OIL CONSERVATION DIVISION
