13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work).*

Repaired road. Moved in 300 bbl. gun barrel. Bypassed heater treater. Hooked up production flow line directly to gun barrel. Repaired fiberglass water tank. Had electricians to repair electric panel on pump jack. Started production. Pump stuck. Rigged up pulling unit and changed pump. Well was stuck again the next morning. I am working with a company out of Odessa to run a submersible pump or stater pump. I should know something about the new installation in the near future.
