Re: Exemption from Packer Leakage Tests

Dear Mr. Alexander:

As per your request in the letter dated October 11, 1994, regarding exemption from packer leakage tests on the following wells:

J.N. Carson "C"	#6-F, Sec 28, T21S, R38E
Drinkard "B"	#8-N, Sec 30, T22S, R38E
Vivian	#13-F, Sec 30, T22S, R38E
Scarborough Estate	#2-H, Sec 31, T22S, R38E

It is my understanding that only one side of the production has a problem when you shut in these wells. I request that you shut in the side that does not require swabbing to resume producing and test the well under those conditions.

If you have any questions, please feel free to call.

Very truly yours
